## WORK EXPERIENCE

### **Software Developer, PhotoShelter** - Aug 2016 - present - New York, NY

- Co-lead adoption of Polymer Web Components, moving away from custom-built JavaScript MVC jQuery-based framework.
- Introduced versioning and build system using GitHub Enterprise, Bower, Gulp and Travis CI, emphasizing improved standards for automated testing, documentation writing and living component demos hosted on GitHub Pages.
- Lead implementation of Redux state management in Polymer projects.
- Collaborated with designers to develop visual pattern library and built reusable atom components to implement the library across the product.
- Worked in Scrum methodology to prioritize and plan product features with interdisciplinary, self-organizing team.

### **Photographer, Will Schneekloth Photography** - March 2007 - June 2016 - New Jersey

- Sole proprietor of commercial photography studio and On-Site Photography Editor for Getty Images.
- Interpreted client concepts into successful visual storytelling piece on deadline.

## EDUCATION

### **April - June 2016 — Web Development Immersive - Flatiron School, New York, N.Y.**

- Immersive full-stack web development bootcamp, with emphasis on Ruby OOP, Sinatra, Ruby on Rails, jQuery, Bootstrap, EmberJS

### **2010 B.A. Journalism and Sociology - Rutgers University, New Brunswick, N.J.**

## TECHNICAL SKILLS

Polymer, Web Components, Redux, Gulp, Git, SASS, jQuery, PHP, Ruby, Rails.
